PROFESSIONAL SUMMARY

Results-driven Lead Full Stack Developer with 1+ year of progressive experience building and shipping production-grade web and mobile applications across the full technology stack. Currently leading development at Digital Clicktag, where I architect scalable systems, define engineering standards, and drive cross-functional teams to deliver high-impact products on time. I bring deep expertise in React.js, Next.js, Node.js, Express.js, and MongoDB, paired with strong mobile development skills in React Native and Flutter — enabling me to own entire product lifecycles from UI design to cloud deployment on AWS. Known for writing clean, maintainable code, optimizing application performance, and translating complex business requirements into elegant technical solutions. A collaborative team player and technical mentor who thrives in fast-paced, Agile environments.

PROFESSIONAL EXPERIENCE

Lead Full Stack Developer

June 2026 – Present

Digital Clicktag | Bengaluru

- Leading a development team to architect and deliver scalable full-stack web and mobile applications.
- Defining technical standards, conducting code reviews, and mentoring junior developers.
- Collaborating with stakeholders to translate business requirements into robust technical solutions.
- Overseeing deployment pipelines ensuring high availability and performance across platforms.

Full Stack Developer

June 2025 – June 2026

Digital Clicktag | Bengaluru

- Built and maintained full-stack applications using React.js, Next.js, Node.js, Express.js, and MongoDB.
- Developed cross-platform mobile apps using React Native and Flutter, ensuring consistent UX across iOS and Android.
- Designed and integrated RESTful APIs, improving data flow and reducing frontend load times.
- Implemented AWS cloud services for hosting, storage, and serverless functions.

Full Stack Developer (Contract)

April 2025 – June 2025

Digital Clicktag | Bengaluru

- Delivered frontend and backend features for client-facing web portals.
- Participated in sprint planning, daily standups, and retrospective meetings following Agile/Scrum.

Full Stack Developer Intern

October 2023 – December 2023

Take It Smart (OPC) Private Limited | Bengaluru

- Designed and deployed web apps using React.js, Redux, Node.js, Express.js, and MongoDB; built RESTful APIs for frontend-backend integration.
- Conducted user research, wireframing, and prototyping; utilized Git/GitHub for version control, resolved bugs, ensured cross-browser compatibility.

PROJECTS

Reach Auto Parts — E-Commerce Website & Admin Panel

Next.js • Node.js • Express.js • MongoDB • AWS | reachautoparts.us

- Built a full-scale automotive parts e-commerce platform with product catalog, cart, order management, and secure checkout.
- Developed a feature-rich admin panel dashboard with inventory management, order tracking, sales analytics, and user management.
- Integrated RESTful APIs for real-time product search, filtering, and seamless frontend–backend data flow; deployed on AWS.

Custom Business CRM

React.js • Node.js • MongoDB • Twilio • Firebase • Authorize.net • Meta Ads API

- Engineered an end-to-end CRM with lead management, contact pipelines, activity tracking, and team collaboration tools.
- Integrated Twilio for SMS/WhatsApp messaging, Firebase for real-time notifications, and email automation for multi-channel outreach.
- Implemented Authorize.net and Bank of America payment gateways for international transactions; integrated Meta Ads API for campaign tracking.

Business Management App & Dashboard (Web + Mobile)

React.js • React Native • Node.js • WebRTC • Socket.io • Firebase

- Built a role-based access control system for a cross-platform business management app (web + mobile) with department-level permissions.
- Implemented real-time calling feature using WebRTC and a full-featured in-app chat (text, media, voice notes, read receipts — mirroring WhatsApp functionality).
- Developed a live dashboard with analytics, task management, attendance tracking, and real-time notifications via Firebase.

Novaria — E-Commerce Website

Next.js • Node.js • MongoDB • Razorpay | novariaaklumniss.com

- Developed a complete e-commerce platform with product listings, collections, wishlist, cart, and multi-step checkout flow.
- Integrated Razorpay payment gateway for secure domestic and international transactions with webhook-based order confirmation.
- Optimized for performance and SEO with server-side rendering; built responsive UI with smooth UX across all devices.

TECHNICAL SKILLS

Frontend	React.js, Next.js, Redux, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript
Mobile	React Native, Flutter
Backend	Node.js, Express.js, REST APIs, WebRTC, Socket.io / WebSocket
Database	MongoDB, MySQL, Redis
Cloud & DevOps	AWS (EC2, S3, CloudFront), Docker, CI/CD, Firebase
Integrations	Twilio, Razorpay, Authorize.net, Meta Ads API, Stripe, Cloudinary
Tools	Git, GitHub, Figma, Postman, Agile / Scrum, VS Code

EDUCATION

Bachelor of Engineering — Computer Science

2021 – 2025

East Point College of Engineering & Technology, Bangalore | Visvesvaraya Technological University (VTU)
